

OPERATIONS DASHBOARD

DASH! FOR DAS

DASH! is a revolutionary new enhancement for DAS, offering managers complete transparency over operations, with the ability to identify inefficiencies and then drill into the data to spot and address issues – and all via a slick, mobile-friendly user interface.

Key Benefits

The Ultimate Manager's Tool

- Total transparency and control over operations – even when remote
- Drill into your data to expose issues
- Interrogate allocation decisions to enforce consistency
- Reduce time required to manage operations
- Any device; anywhere: DASH! travels with you
