DRIVER SELF-SERVICE PORTAL

OnBoard

OnBoard is a truly modern web portal which enables drivers to interact with the traffic office and Trapeze's Duty Allocation System - wherever and whenever they wish, taking advantage of the latest mobile technology and offering a simple and user-friendly interface.

The core solution streamlines driver and traffic office interactions; and has been developed as an expanding platform - ensuring it grows to meet the driver interaction requirements of tomorrow and beyond.

Access wherever, whenever

Key Benefits

- Streamline office-driver interaction & communication
- Engage & retain drivers
- Embrace truly mobile sign-on
- Facilitate centralisation while retaining driver communication
